

# ADVANCED PROJECT MANAGEMENT

An effective and highly-valued project manager plays the roles of leader, communicator, negotiator, collaborator, problem solver, delegator, and decision maker. They must be able to analyze project needs and nimbly adapt the project management approach to fit the situation. Those who complete the **Advanced Project Management Certificate** will be prepared to pursue the PMP® credential that is offered by the Project Management Institute (PMI®).

## Advanced Project Management Certificate

The Advanced Project Management Certificate walks you through the full project management lifecycle—from vision, to assembling a team, to breaking down responsibilities, to managing tasks and expectations, to final evaluation. Classroom learning sessions are augmented with computer-based project management simulations designed to apply your growing skillset. This sophisticated project management curriculum includes online, face-to-face, simulation, and exam preparation courses.

Successful completion of all four courses leads to an Advanced Project Management Certificate from UNLV. It will also allow you to pursue PMP® or CAPM® certification.

 **32% higher**

The median salary for PMP holders in the U.S. is 25% higher than those without PMP certification, according to PMI's most recent Project Management Salary Survey.

## Advanced Project Management Bundle

Register in all four core classes for the Advanced Project Management Certificate for just \$3945. Courses may not be taken individually for this certificate as each builds upon the prior course.

- Project Management Training Camp
- Guiding Organizational Change
- PMP® Exam Preparation
- Project Management Fundamentals Online Lessons & Labs

### Project Management Training Camp

This is the ultimate, immersive, project management training experience! Over the course of three days in the classroom, you will actively engage with a simulated 21-week project, taking it from start to finish. You will work in teams to make project decisions that will guide you through the project and give you the practice iterations to build real project management skills. Simulations are driven by a responsive virtual system, with a software engine that replicates a real-world work environment.

### Guiding Organizational Change

As a project manager, you must be adept at driving organizational change. Over the course of three days in the classroom, acquire hands-on experience guiding project teams as you run multiple, simultaneous, organizational change projects via computer-based simulations. You will specifically learn to lead teams through the transition process, while leveraging key leadership skills. Your decisions, teamwork, and experiences in this class will provide you with the practice iterations to build real project leadership skills. Simulations are driven by a responsive virtual system, with a software engine that replicates a real-world work environment.

### PMP® Exam Preparation

The PMP® and the CAPM® are internationally-acclaimed project management credentials issued by the Project Management Institute. These certifications are the gold standard for those who work as project managers; both are true discriminators in the hiring process for project management positions. With this in mind, this five-day course focuses you on the right knowledge, skills, tools, and techniques to amplify your abilities to pass the very difficult PMP® or CAPM® exams and earn these credentials. You will learn all necessary project management processes, leadership concepts, and business tools to successfully navigate these exams. You will also receive access to a PMP® exam simulator, which provides hundreds of practice questions in quiz and certification formats.

### Schedule & Registration

For complete course descriptions, program dates, and registration, visit [ced.unlv.edu/project-management](http://ced.unlv.edu/project-management).

### Nevada Employment Outlook:

The national median annual salary for project management was \$94,500 in 2021. Wages are higher for project managers with specialized expertise in top industries.

### Project Management Fundamentals Online Lessons & Labs

This fully online, self-paced course utilizes virtual lessons and labs to reinforce your knowledge of key project management principles. Via various simulations, gain experience planning and managing parameters associated with project initiation, scope, schedules, budgets, risks, quality, communications, resources, procurements, stakeholders, and closure. You will complete self-paced, online labs that provide you with further insights into how you can better work with each of these parameters. The goal of this course is to provide a firm foundation from which you can better manage projects.
